

# Price of Waterproof Outdoor Optical Cable

## Article Overview

Waterproof outdoor optical cables typically range from \$0.50 to \$3 per meter, depending on fiber type, length, and protective features.

### Pricing Overview

The cost of waterproof outdoor optical cables varies based on several factors:

- **Fiber Type:** Single-mode cables are generally more expensive than multi-mode cables due to higher transmission distance and lower signal loss. For example, OM3 multimode duplex cables are available in 100-meter lengths for around \$100-\$150, equating to roughly \$1-\$1.50 per meter (Amazon, Elfcam) .
- **Cable Length:** Longer cables increase total cost. Standard lengths range from 50 meters to 300 meters, with prices scaling proportionally .
- **Protective Features:** Armored or reinforced cables with steel tape or dual jackets for outdoor use are more expensive due to enhanced durability, rodent resistance, and waterproofing .
- **Environmental Ratings:** Cables rated for extreme temperatures, UV resistance, or IP-rated waterproofing may cost more. For instance, ADSS dual-jacket self-supporting cables for aerial systems or armored stainless steel loose tube cables are designed for harsh environments and can cost \$2-\$3 per meter or higher .

### Typical Price Ranges

| Cable Type                 | Length | Price Range (USD) | Notes |
|----------------------------|--------|-------------------|-------|
| Multi-mode OM3, reinforced | 100m   | 100 m...          |       |
