

Price of electrical distribution boxes for construction sites in Benin

Article Overview

Electrical distribution boxes for construction sites in Benin typically range from \$50 to \$300 depending on capacity, type, and supplier.

Overview

Construction power boxes, also known as job site power panels or temporary power enclosures, are essential for safely distributing electricity to tools, lighting, temporary offices, and machinery on construction sites. They come in modular, portable, weatherproof, and generator-integrated designs, with prices varying based on features, capacity, and brand .

Estimated Price Range

- Small portable units for short-term projects or mobile crews: approximately \$50-\$100.
- Standard multi-circuit distribution boxes for general construction zones: around \$100-\$200.
- High-capacity or specialized enclosures (multi-phase, heavy machinery, or integrated with generators): \$200-\$300 or more depending on specifications . These prices are influenced by factors such as brand, material quality, number of circuits, and local import costs.
