

Price of well-known cable trays in Uganda

Article Overview

Tray-type cable trays in Uganda generally range from UGX 150,000 to UGX 500,000 per meter, depending on type, size, and material.

Overview of Cable Tray Types and Pricing

Tray-type cable trays are widely used for supporting electrical cables in industrial, commercial, and residential projects. Common types include:

- Ladder Cable Tray: Heavy-duty, ideal for power cables in warehouses and factories. Prices are higher due to robust construction.
- Perforated Cable Tray: Solid base with ventilation holes, suitable for general industrial and commercial use.
- Wire Mesh (Basket) Tray: Lightweight and flexible, often used for data and control cables.
- Galvanized Steel Tray: Offers corrosion resistance, recommended for Uganda's humid environments. The dimensions also affect pricing. For example, a 100mm x 25mm tray is smaller and less expensive, while larger trays like 150mm x 50mm or P31 series trays with accessories cost more .

Price Range

- Small to medium trays (100mm–150mm width): Approximately UGX 150,000–250,000 per meter.
- Larger or premium trays (P31, perforated, or galvanized steel): Approximately UGX 300,000–500,000 per meter, depending on accessories and support systems
