

# Price quote for 100kWh off-grid EMS system for data centers

## Overview

In 2026, the installed cost of a 100kWh commercial lithium battery energy storage system typically falls within the following range: USD 180 – 380 per kWh (installed) Total system cost: USD 18,000 – 38,000 In 2026, the installed cost of a 100kWh commercial lithium battery energy storage system typically falls within the following range: USD 180 – 380 per kWh (installed) Total system cost: USD 18,000 – 38,000 Average Cost of a 100kWh Commercial Battery System in 2026 In 2026, the installed cost of a 100kWh commercial lithium battery energy storage system typically falls within the following range: USD 180 – 380 per kWh (installed) Total system cost: USD 18,000 – 38,000 The price variation depends on. The UESS-CAB 50-100F is an all-in-one outdoor energy storage cabinet designed for factories, data centers, mining sites, cold-chain warehouses, and microgrids. With 50-100kWh LiFePO4 capacity and 50kW output power, it delivers stable, safe, and efficient energy for critical operations. □□ Why. Highjoule's 100kWh Outdoor Cabinet Series integrates the battery, BMS, EMS, modular PCS, and fire protection system into a compact, weatherproof unit. Join us as a distributor! Sell locally — Contact. Made to Order — Contact us for lead time and ordering. • 20+ years of expected system life. • Designed to operate under a temperature of up to 50°C, down to -40°C. 60kW 100kWh 120/208Y VAC 3 phase battery backup ESS (Energy Storage System) with integrated off grid backup power is an all in one combination of ESS and UPS (uninterrupted power supply/battery backup).
