

# Price quote for Israeli smart power distribution cabinets

## Article Overview

Israeli smart power distribution cabinets typically range from \$2,500 to \$15,000 per unit, depending on size, features, and customization.

### Market Overview

Smart power distribution cabinets in Israel are widely used in data centers, industrial facilities, and energy infrastructure, integrating features such as remote monitoring, intelligent metering, and environmental sensors . The market includes both local manufacturers like Eshed Automation LTD and Electro Distribution, as well as international suppliers providing customized solutions . These cabinets are designed to meet IEC standards and withstand Israel's diverse climate conditions, from coastal humidity to desert heat .

### Price Factors

The cost of a smart distribution cabinet depends on several factors:

- Size and capacity: Larger cabinets for medium to large data centers or industrial applications are more expensive.
- Intelligence features: Cabinets with metered, monitored, or switched PDUs, outlet-level control, and DCIM integration command higher prices .
- Battery integration: Units with LiFePO<sub>4</sub> battery systems and advanced battery management systems increase the cost ....
