

Price quote for zinc-aluminum-magnesium cable trays in China

Article Overview

Zinc-Aluminum-Magnesium cable trays in China are typically priced competitively, with costs depending on size, type, load capacity, and customization, often ranging from \$15 to \$50 per meter for standard industrial models.

Overview of Pricing

The price of Zn-Al-Mg cable trays in China varies significantly based on tray type (ladder, perforated, ventilated trough), dimensions, and load capacity. Standard ladder-type trays with moderate load capacity (100-250 kg) generally fall in the \$15-\$50 per meter range, while larger or heavy-duty trays with higher side rail heights (up to 500 mm) may cost more. Factory-direct or OEM orders can reduce costs, especially for bulk purchases.

Factors Affecting Price

- **Material and Coating:** The Zn-Al-Mg alloy provides superior corrosion resistance and durability, often extending service life 3-5 times longer than traditional galvanized trays, which can justify a higher price.
- **Tray Type and Size:** Ladder trays, perforated trays, and ventilated troughs have different manufacturing complexities. Larger trays or those with thicker side rails (e.g., 200-500 mm) are more expensive.
- **Customization:** Custom lengths, colors, or surface finishes (epoxy, powder coating) can increase the unit price.
- **Supplier and Volume:** Purchasing directly from manufacturers in Jiangsu or other i...
