

Primary Distribution Box 500KW

Overview

Reliable, scalable, and intelligent high-density power distribution solution ideal for large data centers. This 500kVA PDU features a 480V input, 400/208V output transformer and Square D I-Line Panel Board. These user-selectable options are factory-assembled and tested, to streamline your. Find the Manuals, Submittal Drawings, and Other Documentation for Your Specific Product Here: In your web browser, type in <https://www.com/ref=> and the commercial reference for your product. [com/ref=PMM400-ALAX](https://www.com/ref=PMM400-ALAX) Find the Power Distribution Unit Manuals: Scan the code. Commonpower Distribution Boxes Wire set up and structure are simple and clear, and it is very convenient to install and use. Can be Start and stop by on-site buttons. Factory-configured with 800AF main, eight 400A sub-feeds, and surge protection—ready to deploy and integrate with. The Larson Electronics MPD-480V. The 500KVA European Box Type Substation: Your reliable solution for efficient and safe power.
