

Ranking of AI server companies

Overview

To bring clarity to the market, ABI Research's AI Server OEMs Competitive Ranking assesses eight global AI server companies. We evaluated server manufacturers based on performance, partner channels, workload optimization, environmental impact, future-readiness, and other. Artificial Intelligence (AI) server manufacturers have experienced surging demand as data center operators require significantly more computing power than before the advent of ChatGPT and other Generative Artificial Intelligence (Gen AI) tools. 3 Billion by 2035, at a CAGR of 40.06% during the forecast period 2025–2035. (US), Hewlett Packard Enterprise Development LP (US), Lenovo (Hong Kong), Huawei Technologies Co. The AI Server landscape is evolving rapidly, driven by the need for higher processing power, efficiency, and scalability. Generative AI's fingerprints are all over this year's Cloud 100 list, from model-training frontier labs to companies in health, law, customer service and more — all trying. With the global AI server market projected to reach USD 837.3B (3% CAGR), selecting optimal AI server solutions is more critical than ever.
