

Recommended electrical distribution boxes for construction sites in Saudi Arabia

Article Overview

You can source high-quality electrical distribution boxes in Saudi Arabia from local suppliers like Nassguard and Alrouf, international exporters from China, or customized solutions from companies like Coloria and Schneider Electric.

Local Suppliers

- Nassguard offers a range of electric enclosures, stainless steel junction boxes, IP65-rated enclosures, and distribution board enclosures suitable for industrial and construction applications in Saudi Arabia. Their products are designed for durability, weatherproofing, and compliance with local safety standards, making them ideal for harsh construction environments in Riyadh, Jeddah, and other regions .
- Alrouf provides electrical boxes and enclosures that protect wiring and connections from damage, suitable for both residential and construction site applications .

International Exporters

- Chinese manufacturers are a major source of power distribution boxes for Saudi construction projects. Exported boxes must comply with SASO certification, Saudi ROHS, and ISO 9001 quality management standards. They typically feature IP54 or higher protection, modular designs, clear internal layouts, and proper grounding systems. Export considerations include sturdy, moisture-proof packaging and compl...
