

# Rwanda Direct-Buried Optical Cable Price

## Article Overview

Direct-buried optical fiber cable prices in Rwanda vary widely depending on specifications, quantity, and supplier, typically ranging from \$0.50 to \$3 per meter for standard single-mode or multi-mode cables.

### Overview of Pricing

The cost of direct-buried optical fiber cables in Rwanda depends on several factors:

- Cable type: Single-mode cables are generally more expensive than multi-mode due to longer-distance transmission capabilities. Armored or reinforced cables for direct burial add to the cost.
- Fiber count: Cables with higher fiber counts (e.g., 24, 48, or 96 fibers) are more expensive than lower-count cables.
- Supplier and brand: Local distributors like BigBox Rwanda offer genuine tech brands, while international suppliers may provide bulk discounts .
- Quantity and bulk orders: Purchasing in bulk often reduces the per-meter cost. Wholesale suppliers in Rwanda, such as those listed on go4WorldBusiness, provide competitive pricing for large orders .
- Installation considerations: Direct-buried cables may require additional protective layers, conduits, or trenching, which can increase the overall project cost.

### Suppliers in Rwanda

Several suppliers and distributors provide optical fiber cables suitable for direct burial:...
