

South Asia Combined Cable Tray Specifications

Article Overview

Combined cable tray systems in South Asia typically follow international standards such as BS EN, NEMA, and ASTM, with materials including steel, stainless steel, aluminum, and fiberglass, and come in a variety of types, sizes, and accessories for versatile installation.

Types of Cable Trays

Cable trays are available in multiple configurations to suit different installation needs :

- Ladder type: Ideal for heavy-duty cables and long spans.
- Trough type: Provides partial protection while allowing ventilation.
- Solid bottom type: Offers full protection against dust and debris.
- Channel type: Suitable for small cable runs or limited spaces.
- Wire mesh type: Lightweight, flexible, and easy to install in complex layouts .

Materials and Finishes

Cable trays are manufactured from materials selected for mechanical strength and corrosion resistance :

- Steel: Pre-galvanized or hot-dip galvanized for cost-effective corrosion protection.
- Stainless steel: Typically AISI 316L, offering high resistance to corrosion, especiall...
