

Standard Price of Street-Level Electrical Distribution Boxes

Article Overview

Street-level electrical distribution boxes typically range from \$150 to \$1,500 or more, depending on capacity, material, and features.

Price Range and Factors

The cost of street-level distribution boxes varies widely based on voltage rating, amperage capacity, number of circuits, and material construction. Basic residential units with single-phase configurations generally start around \$150–\$300, while more robust three-phase or commercial-grade boxes can range from \$500 to \$1,500 or higher due to enhanced durability, weather resistance, and advanced control features. Outdoor-rated boxes, designed to withstand moisture, temperature extremes, and unauthorized access, often carry a premium compared to indoor units.

Types of Street-Level Distribution Boxes

- Residential Units: Typically single-phase, weather-resistant, and suitable for small-scale power distribution. Prices usually start at \$150–\$300.
- Commercial/Industrial Units: Three-phase systems with higher amperage, surge protection, and modular configurations. Prices range from \$500–\$1,500+ depending on features.
- Outdoor Pole or Wall-Mounted Units: Designed for street lighting, overhead supply, or public infrastructure. These include ABC distribution boxes, pole-mounted cut-outs, and street lighting cut-outs, often featuring lockable covers and compliance with st...
