

Supplier of 1310nm High-Density Fiber Distribution Box

Article Overview

Top suppliers for 1310nm high-density fiber distribution boxes include Corning, OTRANS, CRXCONEC, Amphenol Network Solutions, and Choice IT Global, offering scalable, modular, and high-performance solutions for indoor and outdoor fiber networks.

Leading Suppliers and Product Highlights

1. Corning Corning offers the Centrix™ System and Eclipse® integrated fiber management system, which support high-density fiber connections with up to 4,320 LC or 2,880 SC ports per standard frame. These systems provide optimized jumper routing, modular cassettes, and WDM device integration, suitable for central offices, FTTx, and data centers . 2. OTRANS OTRANS provides a wide range of Fiber Distribution Boxes (FDB) for indoor and outdoor applications, supporting various fiber core capacities. Their boxes are made from high-impact ABS+PC materials for durability and include dustproof, waterproof, and secure access designs. OTRANS also offers integrated solutions including optical distribution frames, handover boxes, and splitters for FTTx networks . 3. CRXCONEC CRXCONEC manufactures DIN Rail high-density wall-mounted optical distribution frames and fiber termination boxes for industrial and FTTx applications. Their products support multiple core counts (8, 12, 16, 24, 48, 144, 288) and comply with international standards for temperature cycling, crush, and salt spray tests. They offer both indoor and outdoor configurations with RoHS and REACH certifications . 4. Amphenol Network Solutions Amphenol provides high-density fiber panels and modules for data centers and central offices....
