

Telecom Fiber Optic Cable Pole Erection Quotation

Overview

Premium: 5,000 ft route through urban dense right-of-way, complex trenching, multiple splices, extensive testing, and certification, plus restoration and permit packages. Total: about \$60,000-\$110,000. Deploying fiber above ground on poles or towers removes the need for underground digging and is particularly useful when the ground is uneven, rocky or both. Fiber in a duct solutions have a major aesthetic. Overhead fiber optic cable is suitable for long-distance lines and dedicated network optical cable lines or some local special sections. We provide services such as, Fiber Optic Solution, Tower Erection Services, Pole Erection Services, Infrastructure Sharing, Energy Management. Find global tender information, RFPs, RFQs, ICBs.
