

The most powerful company in optical modules

Article Overview

Xutron Technology and II-VI (Finisar) are currently the strongest companies in optical module manufacturing, with Xutron leading the global market and Huawei also ranking among the top players.

Global Market Leaders

Xutron Technology has emerged as the global leader in optical module shipments, ranking first in the 2023 LightCounting TOP10 list. It has achieved significant scale and technological capability, particularly in high-speed modules such as 800G and 1.6T, and has consistently expanded its market share over recent years . II-VI (acquired Finisar) is tied with Xutron for first place, leveraging its long-standing expertise in optical components and modules, including coherent and high-speed solutions for data centers and telecom networks . Huawei (HiSilicon) ranks third globally, with strong capabilities in coherent DWDM modules and high-end optical solutions. Despite challenges in accessing the latest CMOS technology, Huawei continues to invest heavily in local supply chains and maintains a competitive position in high-speed optical modules .

Other Notable Players

- Optical Xun Technology (#5) and Hisense Broadband (#6) are also significant Chinese suppliers with growing global influence .
- Cisco (Acacia), Coherent (Finisar), and Marvell remain key international players, t...
