

What is the unit hm for cable trays

Article Overview

In the context of Clenergy RUNNUR cable trays, "HM" refers to the Hold-Down Unit accessory, not a measurement unit.

The CR1-HM is a specific accessory designed to secure cable trays under load and environmental stress, helping maintain alignment and safety in the RUNNUR CR1 cable tray system . It is made from MAC-steel (Zn-Mg-Al alloy-coated steel), which provides high corrosion resistance and suitability for outdoor use . The hold-down unit ensures that trays remain stable even when exposed to vibration, wind, or heavy cable loads.

Key Details About the CR1-HM Hold-Down Unit

- Purpose: Secures cable trays to prevent movement and maintain structural integrity.
- Material: MAC-steel with zinc-magnesium-aluminium coating for durability and corrosion resistance .
- Compatibility: Designed specifically for the Clenergy RUNNUR CR1 cable tray system.
- Installation: Used alongside other accessories like splice plates, riser links, and tee/cross brackets to complete cable tray installations .

Clarification

The "HM" in CR1-HM is not a unit of measurement such as meters or hectometers. It is part of the product code that identifies the hold-down accessory within the Clener...
