

What price range offers good quality cable trays and light troughs

Article Overview

Cable trays typically range from \$2 to \$25 per meter, while light troughs vary depending on material and design, generally starting around \$10 and going up to \$50 or more per unit.

Cable Tray Pricing

The cost of cable trays depends on material, type, size, and finish. Common price ranges include:

- Galvanized steel trays: \$2-\$15 per meter, balancing durability and affordability .
- Stainless steel trays: \$10-\$25 per meter, offering corrosion resistance for industrial or outdoor use .
- Aluminum trays: \$8-\$20 per meter, lightweight and rust-proof .
- Plastic trays: \$2-\$10 per meter, suitable for light loads and indoor applications .

Tray types also affect pricing:

- Ladder trays: Higher cost due to heavy load capacity.
- Wire mesh trays: Lower cost, ideal for lightweight cabling .
- Perforated trays: Moderate cost, saving up to 15% compared to ladder trays if weight is not a concern . B2B bulk purchases can significantly reduce per-unit costs, sometimes as low as \$0.80 per meter for large orders, while B2C retail prices range from \$15 to \$34 per meter .
