

What qualifications are needed for constructing fiber optic communication cables

Overview

Being certified in fiber optics identifies you as a fiber optics installer. CFOTs have a broad knowledge, skills and abilities (KSAs) in fiber optics that can be applied to almost any job - design, installation, operation - and for almost any application using fiber. A new FOA microcredential for anyone working in fiber optics, not just technicians. All new and renewal FOA Certifications receive online certification credentials. FOA specialist training and certifications are available in three categories, Skills-based. CFOT®- Certified Fiber Optic Technician - is the primary FOA certification for all fiber optic technicians, regardless of the applications in which they work. The FBA OptIC Path™ course consists of 144 hours of instructor-led and hands-on practices to equip future fiber technicians with the skills and knowledge required to install, splice, test and maintain.
