

Where is the aggregation switch in Uzbekistan

Article Overview

Aggregation switches, such as the Ubiquiti UniFi USW-Aggregation-EU and Tenda TEG3328F, are available in Uzbekistan through local distributors and online retailers.

Local Availability

In Uzbekistan, aggregation switches can be purchased from authorized distributors and network equipment suppliers. For example, the Ubiquiti UniFi Switch Aggregation (USW-Aggregation-EU) is available through Hikvision's official distributor in Uzbekistan, offering high-performance Layer 2 aggregation suitable for connecting multiple devices at 10 Gbps speeds . This switch supports centralized management via the UniFi Network Controller, VLANs, and port isolation, making it ideal for enterprise or large office networks . Another option is the Tenda TEG3328F L2 Managed Switch, which supports IP camera discovery, LLDP-based device detection, and strict access control for enhanced network security. It is suitable for enterprise, medical, and other institutional network deployments and can be mounted on desktops, walls, or racks .

Function and Deployment

Aggregation switches in Uzbekistan are typically deployed in enterprise networks, data centers, or campus networks to consolidate traffic from multiple access switches or edge devices and forward it to core switches or routers . They operate at Layer 2 or Layer 3, support link aggregation protocols like LACP, and provide high-speed, re...
