

Which company makes the best optical modules for 10G transmission systems

Article Overview

Key players in the 10G optical module market include Lumentum, II-VI, Cisco Systems, Huawei, ZTE, Juniper Networks, Infinera, FiberHome, Optigo, Broadex, and several specialized Chinese manufacturers.

Leading Global Manufacturers

- Lumentum: Focuses on high-performance tunable and DWDM pluggables, strong in telecom C-band modules, and known for optical component IP and R&D capabilities .
- II-VI Incorporated: Acquired Finisar, producing high-performance 10G SFP+ and X2 optical engines, widely used in carriers and data centers, with deep expertise in lasers and packaging .
- Cisco Systems: Offers factory-tested 10G SFP+ and X2 modules, ensuring compatibility with Cisco platforms and enterprise support contracts .
- Huawei and ZTE: Major Chinese telecom vendors providing a broad range of 10G optical modules for carrier and enterprise networks .
- Juniper Networks and Infinera: Focus on high-speed networking solutions, integrating 10G optical modules into their routing and transport systems .
- FiberHome, Optigo, Broadex: Regional and global suppliers with diverse 10G module portfolios, including X2 and SFP+ types .

Notable Chinese and ODM Manufacturers

- XGIGA Communication Technology Co., Ltd: High-volume production of optical tra...
