

# Wholesale Price of Fiber Optic Sensors in Tonga

## Article Overview

Wholesale fiber optic sensors in Tonga typically range from \$500 to \$2,000 per sensor, depending on type, technology, and specifications.

### Pricing Overview

The cost of fiber optic sensors varies significantly based on the sensor type and application:

- **Fluorescent Fiber Optic Temperature Sensors:** These sensors, used for localized temperature measurements, generally cost \$500 to \$2,000 per sensor, with custom or specialized models exceeding this range. Factors influencing price include sensor length, diameter, fluorescent material, accuracy, and environmental ruggedization .
- **Distributed Fiber Optic Temperature Sensors:** These provide continuous temperature monitoring along the fiber and are priced higher due to the complexity of the sensing fiber, spatial resolution, interrogation units, and installation costs .
- **Fiber Bragg Grating (FBG) Sensors:** Prices vary depending on wavelength range, sensitivity, and integration requirements, often comparable to distributed sensors .

### Wholesale Suppliers in Tonga

Businesses can source fiber optic sensors in bulk from verified suppliers and B2B platforms:...
